Summary

Computer Science graduate specializing in full-stack, AI-driven, and automation engineering, with hands-on experience designing scalable production-grade systems. Proficient in React, Next.js, Node.js, serverless infrastructure, and workflow automation, with practical exposure to LLM integration, agentic AI pipelines, and self-hosted deployments.

Education

Kalinga Institute of Industrial Technology, Bhubaneswar

2022 – 2026

B.Tech in Computer Science and Engineering

Technical Skills

- **Programming Languages:** C/C++, Python, Java, JavaScript
- **Web Development:** HTML, CSS, React.js, Next.js, Express.js, REST APIs
- **AI & Automation:** n8n, LLM Integration (Gemini API), Agentic AI Pipelines, Inngest, Workflow Orchestration
- **DevOps & Infrastructure:** Docker (Containerization), Serverless Architecture, Cloud Deployment
- **Databases:** MongoDB, MySQL, Prisma
- **Tools:** Git, GitHub, Postman, Google Sheets API, Telegram Bot API
- **CS Fundamentals:** Data Structures, Operating Systems, DBMS, Computer Networks, OOP

Experience

TATA STEEL Pvt. Ltd.

May 2025 – July 2025

Web Development Intern

- Developed a complaint management web application with user registration and ticket tracking functionality using HTML, CSS, JavaScript, and SQL
- Built and enhanced frontend UI components improving form flow and user interaction experience
- Designed backend logic with SQL for data storage and retrieval supporting operational use case

Projects

Job Hunter — Autonomous AI Job Hunting Pipeline **GitHub**

Jan 2026 - Mar 2026

n8n, Docker, Gemini API, Google Sheets API, Telegram Bot API

- Built a **22-node automation pipeline** on self-hosted n8n, orchestrating scheduled LinkedIn scraping and AI-driven job filtering with zero manual intervention
- Integrated **Gemini-powered AI Agent** for intelligent job-profile matching across 5+ services, cutting manual job search effort by **~80%**
- Implemented **persistent deduplication** via Google Sheets and real-time Telegram alerts for high-relevance job matches

AI Career Coach — Full-Stack AI Platform **GitHub**

Aug 2025 – Oct 2025

Next.js, Prisma, Inngest, Serverless, Gemini API

- Architected a scalable full-stack AI platform using Next.js and serverless backend for **real-time LLM-powered career recommendations**
- Engineered async workflow orchestration via Inngest, reducing execution failures by **60%** and improving system reliability
- Integrated Gemini API with modular backend services for optimized inference performance and scalable deployment

Achievements and Certifications

- AWS Cloud Virtual Internship — AICTE
- Blockchain Developer Certification — Timechain Labs
